PROFILE

As a dedicated and enthusiastic Full Stack Web Developer, I, Moin Khan, have developed a solid foundation in creating dynamic and responsive web applications. With a strong grasp of both front-end and back-end technologies, including HTML, CSS, JavaScript, React, Node.js, and database management with MongoDB and SQL, I am well-equipped to tackle a variety of web development projects.

WORK EXPERIENCE

- Assisted in the development and maintenance of client websites using HTML, CSS, and JavaScript.
- Collaborated with the design team to implement responsive and user-friendly web interfaces.
- Participated in code reviews and team meetings, contributing ideas and feedback to improve overall project quality.
- Gained experience in using Git for version control and collaborating with other developers on code management.

PERSONAL PROJECTS

- Technologies: React, Node.js, Express, MongoDB
- Developed a full-stack e-commerce application allowing users to browse products, add to cart, and checkout.
- Implemented user authentication and authorization using JWT.
- Designed and developed the front-end using React and managed the state using Redux.
- Built RESTful APIs with Node.js and Express for backend operations, and integrated MongoDB for data storage

As a dedicated MERN Stack Developer, I have honed my skills in building comprehensive web applications using MongoDB, Express.js, React, and Node.js. My hands-on experience with various projects and internships has equipped me with a deep understanding of both front-end and back-end development, allowing me to create seamless and efficient user experiences. I am passionate about leveraging my technical expertise and problem-solving abilities to contribute to innovative and impactful projects. I am eager to bring my skills to a dynamic team where I can continue to grow and make meaningful contributions to the development of cutting-edge web applications
